IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

APPLICANTS: Robert Rosenthal
SERIAL NO.: 10/621,627
FILED: July 17, 2003
EXAMINER: Laura B. Rosenberg
FOR: WHEEL END CONDITION DETECTION SYSTEM

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

DECLARATION UNDER CFR 1.131

Dear Sir:

The attorneys representing the Applicant received an invention disclosure and request to draft the instant patent application on June 2, 2003. The attached e-mail and redacted disclosure indicate this date as well as a client docket no. of 03MRA0203, which is also referenced by the Examiner's office action mailed on April 22, 2005. Attorneys for the applicant worked on the invention disclosure diligently from the June 2nd date and sent a draft for inventor review out on July 8, 2003. The inventors diligently reviewed the draft application, which resulted in filing the application on July 17, 2003. Therefore, the attorneys of the applicant know the invention of the instant application to be before the June 12, 2003 publication date of U.S. 2003/0108262 to Bell.

Respectfully submitted,

Matthew L. Koziarz, Reg. No. 53,154
